1. The amendment filed 4/8/04 has been entered. Claims 1 and 2 have been amended, claims 3-5 have been cancelled and claims 6-9 have been newly added.
2. Claims 1,2,6-9 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-4 of U.S. Patent No. 6,364,871. Current claim 1 is identical to '871 claim 1 except for the wording "which is defined at least in substantial part" (current claim 1) and "substantially defined" ('871 claim 1). However, this wording appears identical in meaning. The same difference is also seen in current claim 2 and '871 claim 2. Claims 2 further differ in that element "b" (first occurrence) of '871 claim 2 has been deleted in current claim 2. However all of the limitations of the current claims are still found within the '871 claims. Current claim 6 and '871 claim 1 differ only in that elements of step "b" (first occurrence) of '871 are not within current claim 6. All of the limitations of current claim 6 can be found within '871 claim 1. Patent '871 claim 2b (first occurrence) recites that the second portion of the beam is larger than the first portion as in current claim 7. Also recited in '871 claim 2b (first occurrence) is that the second subportion includes substantially all of the first subportion as in current claim 8. The third and fourth subportions of current claim 9 are found in '871 claim 2b(i) and 2b(ii).
3. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
